Monies in trust kept in the Guardian's Fund

PART 1

Report of the accounting officer

Introduction

The Guardian's Fund is a statutory trust established in terms of Chapter V of the Administration of Estates Act, 1965 (Act No 66 of 1965). The fund consists of all monies received by the Master of the High Court under the Administration of Estates Act or any other law, or pursuant to an order of court or any money accepted by the Master in trust for any known or unknown person. Whenever any money is received or accepted by the Master, he or she must open an account in the books of the Guardian's Fund in the name of the person to whom the money belongs or in the name of the estate of which the money forms part. The Master must, on application of any person who has become entitled to receive money from the fund, pay that money to the applicant.

The purpose of the Guardian's Fund is therefore to protect and manage monies of persons deemed to be legally incapable or lacking the capacity to manage their own affairs, as well as undetermined, unknown or absent heirs and untraceable persons. The Guardian's Fund is held under management of the Master of the High Court of South Africa.

Some of the functions of the Guardian's Fund, performed with the prescripts of the said Act, are, *inter alia*, to do the following:

- Invest trust monies held with the Public Investment Corporation (PIC).
- Calculate interest accruing in respect of monies received on behalf of beneficiaries at the interest rate as determined by the Minister for Justice and Constitutional Development annually.
- Process inheritance applications and make the payments to persons entitled thereto.

The Guardian's Fund has representation in six masters' offices: Pretoria, Cape Town, Pietermaritzburg, Grahamstown, Bloemfontein and Kimberley.

Core service delivery environment

The operational functionality of the Guardian's Fund System (GFS) has been improved and stricter control processes are being enforced. The development of the GFS has progressed to the stage where it entails one unified electronic application that can process and control all beneficiary information. In the Guardian's Fund service delivery arena, the GFS roll-out programme has resulted in the implementation of an electronic platform for operation. The management and administration of the Guardian's Fund is automated in all six masters' offices where services of the Guardian's Fund are offered. The computerisation of the administration of the fund has facilitated greater accuracy in reporting on its activities.

The GFS has reached the extent of its possible development. Significant development work is still required to upgrade and integrate the current fund into a full financial platform. This should be achieved with the minimum impact on the current operation of the fund. The integration to the financial system will deliver functionality to further support the department in managing the financial affairs of the Guardian's Fund and improve service delivery to beneficiaries. The full financial integration of the Guardian's Fund is to be included with the department's overall system objectives. The department is considering several all-encompassing options, which include, among others, the Integrated Case Management System (ICMS) financials.

The Guardian's Fund has implemented the Absa bi-online system to effect electronic payments to Guardian's Fund beneficiaries. The Absa system has been implemented at the following offices: Grahamstown, Kimberley, Cape Town and Bloemfontein. The new electronic payment process has improved service delivery at these offices by reducing payment turnaround times, as well as effecting an increase in the number of payments made to beneficiaries.

The Pretoria and Pietermaritzburg Guardian's Fund offices will also implement the Absa system in the new financial year.

Growth of beneficiary liability

As has been disclosed in more detail in the financials on pages 18 to 51, it is obvious that the fund continues to show positive growth in the volume of transactions handled, as well as in the total funds under its management.

Guardian's Fund - Transaction Volumes (Receipts & Payments)

Financial management and other reporting issues

Investment management

The Office of the Chief Financial Officer, with assistance from the Office of the Chief Master, is responsible for the formulation and supervision of the mandate given to the investment manager (PIC).

With a balance sheet of over R6 billion in investable assets and growing, the stewardship of the Guardian's Fund's assets is a challenging and complex endeavour. I would like to take this opportunity to extend my sincere gratitude to our expert advisors and also to colleagues at National Treasury who have ensured that the department is able to discharge its obligations and match the expectations in safeguarding the department's assets and growing its investments.

The Guardian's Fund generated more than R468 million in investment income in the 2010/11 financial year.

Management of the interest rate payable to beneficiaries

In light of the current global economic challenges, it has become more imperative to keep a finger on the pulse of developments in the investment arena. To this end, we have resolved to perform more regular reviews on the interest rates for the benefit of beneficiaries.

The fund continually reassesses investment returns, after which the department adjusts the rates payable to beneficiaries accordingly. Rates in operation are adjusted, should the fund lag behind and be placed in a situation where there is a mismatch between income receivable and distribution via interest to beneficiaries.

Acknowledgement

I extend my appreciation towards various stakeholders for their loyal support and valuable contributions.

Approval

The annual statements, as set out on pages 18 to 51, have been approved by the accounting officer.

Ms N Sindane
Accounting Officer

PART 2

Report of the Audit Committee

We are pleased to present our report for the financial year ended 31 March 2011.

AUDIT COMMITTEE

The Audit Committee consists of the members listed below and is required to meet at least four times per annum in accordance with its approved terms of reference. Eight meetings were held during the current year. These included a special meeting held to address the audit concerns and qualification matters in the department.

Names of members	Number of meetings attended	Status
Mr Motsamai Karedi (Chairperson)	8	Reappointed 15 December 2009
Mr Cedric Boltman	8	Reappointed 15 December 2009
Ms Bajabulile Luthuli	7	Appointed 15 December 2009
Ms Matshego Ramagaga	4	Appointed 15 December 2009
Ms Zodwa Manase	3	Appointed 15 December 2009
Mr Wilson Ramabulana	7	Appointed 15 December 2009

AUDIT COMMITTEE RESPONSIBILITY

We report that we have adopted appropriate formal terms of reference in our charter, in line with the requirement of section 38(l)(a) of the Public Finance Management Act, 1999 (Act No 1 of 1999) and Treasury Regulation 3.1.

THE EFFECTIVENESS OF INTERNAL CONTROL

No significant control weaknesses and risks were reported to the Audit Committee and we are satisfied that key controls remained in place throughout the year. Where deficiencies in internal controls were identified, management has demonstrated commitment in addressing them.

Management was also able to obtain approval for the Guardian's Fund accounting system from National Treasury. This will improve financial reporting and oversight provided by the Audit Committee.

INTERNAL AUDIT

The Internal Audit Unit of the Department of Justice and Constitutional Development is also responsible for auditing the Guardian's Fund. The unit has discharged its responsibilities in accordance with the Internal Audit Plan.

AUDITOR-GENERAL OF SOUTH AFRICA

We met with the Auditor-General of South Africa to ensure that there are no unresolved issues.

The quality of in-year management and monthly/quarterly reports submitted in terms of the PFMA

Although there are areas of improvement, as highlighted by the Department of Justice and Constitutional Development, we are satisfied with the content and quality of monthly and quarterly reports prepared and issued by the accounting officer during the year under review. However, we have noted the Auditor-General's concerns related to the department's reporting on performance information in terms of the required auditing standards.

Management has undertaken to effect the recommended improvements and the Audit Committee will continuously monitor progress in that regard.

Evaluation of financial statements

We have done the following:

- Reviewed and discussed the audited annual financial statements to be included in the annual report with the Auditor-General of South Africa and the accounting officer.
- Reviewed the Auditor-General of South Africa's management letter and management's response to it.
- Reviewed the department's compliance with legal and regulatory provisions.
- Reviewed significant adjustments resulting from the audit.

We concur and accept the conclusions of the Auditor-General of South Africa's report on the annual financial statements and are of the opinion that the audited annual financial statements should be accepted, read together with the report of the Auditor-General of South Africa.

M Karedi
Chairperson of the Audit Committee
Date: 8 August 2011

Monies in trust kept in the Guardian's Fund

PART 3

Report of the Auditor-General to Parliament

INTRODUCTION

1. I have audited the accompanying financial statements of the Guardian's Fund, which comprise the statement of financial position as at 31 March 2011, the statement of comprehensive income, the statement of changes in equity and the cash flow statement for the year then ended, as well as a summary of significant accounting policies and other explanatory information, and the accounting officer's report, as set out in the annual report.

ACCOUNTING OFFICER'S RESPONSIBILITY

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Statements of Generally Accepted Accounting Practice (SA Statements of GAAP) and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR-GENERAL'S RESPONSIBILITY

3. As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No 108 of 1996), section 4 of the Public Audit Act of South Africa, 2004 (Act No 25 of 2004) (PAA), my responsibility is to express an opinion on these financial statements based on my audit.
4. I conducted my audit in accordance with International Standards on Auditing and General Notice 1111 of 2010, in *Government Gazette* 33872 of 15 December 2010. Those standards require that I comply with

ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
6. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

OPINION

7. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Guardian's Fund as at 31 March 2011, and its financial performance and cash flows for the year then ended in accordance with the SA Statements of GAAP.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

8. In accordance with the PAA and in terms of General Notice 1111 of 2010, in *Government Gazette* 33872 of 15 December 2010, I include below my findings on the annual performance report as set out on pages 18 to 51 and material non-compliance with laws and regulations applicable to the Guardian's Fund.

Predetermined objectives

9. The performance information relating to the Guardian's Fund is reported in the annual report of the Department of Justice and Constitutional Development, Programme 3: State Legal Services.

Compliance with laws and regulations

10. There are no findings concerning material non-compliance with laws and regulations applicable to the Guardian's Fund.

INTERNAL CONTROL

11. In accordance with the PAA and in terms of General Notice 1111 of 2010, in *Government Gazette* 33872 of 15 December 2010, I considered internal

control relevant to my audit, but not for the purpose of expressing an opinion on the effectiveness of internal control. There are no significant deficiencies in internal control that resulted in a qualification of the auditor's opinion on the financial statements and material non-compliance with laws and regulations.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2011

1. General information

The Guardian's Fund is a statutory trust established in terms of Chapter V of the Administration of Estates Act, 1965 (Act 66 of 1965).

The purpose of the Guardian's Fund is to protect and manage monies of persons deemed to be legally incapable or lacking the capacity to manage their own affairs, as well as undetermined, unknown or absent heirs and untraceable persons.

The Guardian's Fund is held under management of the Master of the High Court of South Africa.

2. Principal accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The financial statements have been prepared on the historical cost basis, except for available-for-sale investments that have been measured at fair value. The financial statements are presented in rand.

Statement of compliance

The financial statements of the Guardian's Fund have been prepared in accordance with South African Statements of GAAP, as required by the Public Finance Management Act, 1999 (Act No 1 of 1999) (PFMA), and as applicable to a going concern.

2.2 Summary of significant accounting policies

2.2.1 Financial instruments

(i) Date of recognition

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulations or convention in the marketplace are recognised on the date that the Guardian's Fund commits to purchase or sell the asset.

(ii) Initial recognition of financial instruments

The classification of financial instruments at initial recognition depends on the purpose for which the financial instruments were acquired and their characteristics. All financial instruments are measured initially at their fair value plus, in the case of financial assets, not at fair value through profit or loss, any directly attributable incremental cost of acquisition or issue.

(iii) Available-for-sale financial investments

Available-for-sale financial investments are those that are designated as such or do not qualify to be classified at fair value through profit or loss, held-to-maturity or loans and advances. They include equity instruments, investments in money market accounts and other debit instruments.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value. Unrealised gains and losses are recognised directly in equity in the "*accumulated other comprehensive income*". When the security is disposed of, the cumulative gain or loss previously recognised in equity is

recognised in the statement of comprehensive income in “*other operating income*” or “*other operating expenses*”. Interest earned while holding available-for-sale financial investments is reported as interest income using the effective interest rate. Dividends earned while holding available-for-sale financial investments are recognised in the statement of comprehensive income as “*other operating income*” when the right of the payment has been established. The losses arising from impairment of such investments are recognised in the income statement in “*impairment losses on financial investments*” and removed from the “*accumulated other comprehensive income*”.

Financial assets, other than those at fair value through profit or loss (FVTPL), are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

2.2.2 Cash and cash equivalents

Demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value are disclosed under another category of financial instrument, depending on the nature.

Cash and cash equivalents that do not have fixed and determined payments will be classified as available-for-sale financial assets.

Cash and cash equivalents and bank borrowings are recorded at face value.

2.2.3 Revenue recognition

The Guardian’s Fund recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic

benefits will flow to the entity and specific criteria in terms of the Estates Act, 1965 (Act No 66 of 1965), have been met.

Interest income

Interest revenue is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset’s net carrying amount.

2.2.4 Financial liability

(i) Initial recognition

The financial liability is initially recognised at historical cost at the date of receipt of the monies due to the beneficiary.

(ii) Subsequent recognition

After initial recognition, the liability is measured at value of the amount owing to the beneficiaries of the fund, after taking into account the provisions of the Estates Act, 1965 (Act No 66 of 1965).

(iii) Derecognition

The financial liability is derecognised when the obligation of the Guardian’s Fund to the beneficiary has been extinguished.

In terms of section 87 of the Administration of Estates Act, 1965 (Act No 66 of 1965), beneficiary monies received in the Guardian's Fund should be invested with the PIC. All monies, except for those required for immediate disbursements, are invested with the PIC. Unrealised profit/(loss) is the difference between "all-in market values" and the "clean book value" plus "market value interest".

5. cont.

A provision against “accumulated other comprehensive income” was made for this unrealised profit/(loss). The carrying amount of financial investments available-for-sale approximates their fair value.

These amounts relate to the interest received on the current accounts of the Guardian's Fund regional office being swept and paid over to the state. These monies are Guardian's Fund monies and need to be recouped over to the Guardian's Fund.

The Guardian's Fund has provided (see below) to be conservative, however every effort will be made to recoup and reverse the provision.

Risk management statement

Introduction

As a client of the PIC, the Guardian's Fund specifies its desirable risk parameters in accordance with its own risk appetite. This risk appetite informs the formal investment mandate given to the PIC. The ultimate responsibility for investment risk management oversight lies with the PIC and not with the Guardian's Fund.

Market risk

Market risk is the potential loss due to adverse movement in the market value of assets. The entity's activities expose it primarily to the risks of fluctuations in interest rates. Interest rate risk refers to the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Market risk exposures are measured using a sensitivity analysis. This shows how net surplus, and/or net assets would have been affected by changes in the relevant risk variable that were reasonably possible at the reporting date.

Interest rate risk

This risk is the potential financial loss as a result of adverse movements in interest rates that affect the value of money market instruments. As a PIC client, the Guardian's Fund is exposed to interest rate risk through investments in money markets. Sensitivity to interest rate movements is measured by the duration of the fixed interest exposure. Such duration is dictated in the Guardian's Fund client investment mandate to PIC, relative to the appropriate benchmark. These investment mandates prescribe how PIC should manage the assets, in line with the Guardian's Fund's liquidity needs and liability profile.

Interest rate risk sensitivity analysis

The following sensitivity analysis is based on financial instruments' exposure to interest rates at the statement of financial position date. The basis points' increase or decrease, as detailed in the following table, was determined by management and represent management's assessment of a reasonable

change in interest rates. The positive number indicates an increase in net surplus, while a negative number indicates a decrease in net surplus. There is no change in the methods and assumptions used in preparing the sensitivity analysis from one year to the next. In the graph, the zero interest rate represents the base, as disclosed in the audited financial statements.

The sensitivity analysis above shows that even with a 2% change (both ways) in the interest rate, the Guardian's Fund would have had sufficient interest investment income to cover the interest paid to fund beneficiaries at the gazetted rate of interest.

Credit risk

The Guardian's Fund investment portfolios are exposed to the potential for credit-related losses that can result due to an individual, counterparty or issuer being unable or unwilling to honour contractual obligations. To mitigate this risk and minimise excessive credit exposure to one single counterparty, the Guardian's Fund's mandate to PIC states that PIC will only invest with local commercial banks or institutions that have a credit rating of at least "A" from one of the recognised domestic and/or international credit rating agencies.

Concentration risk

Concentration risk is the risk of losses arising due to poor diversification within funds, which can result in undesirable risk exposures. The Guardian's Fund manages this risk through the PIC investment mandate, which dictates the level of concentration. Money market investments are spread across banks to reduce and diversify the client's concentration risk.

Liquidity risk

Liquidity risk is the potential that there will not be adequate liquid assets available to meet the needs of the Guardian's Fund when they fall due. The Guardian's Fund manages this risk through the investment mandate that is signed with PIC. The mandate is in line with the fund's liquidity need and its liability profile. Currently, the Guardian's Fund's liquid assets holding is R5.9 million.
